

enabling audience reach fueling DTH growth

At SES WORLD SKIES we know your success depends on audience reach. Without doubt, we have the expertise and capacity in place to help you deliver.

Our three Asian satellites – NSS-6 at 95° East and NSS-11 and SES-7 co-located at 108.2° East – are already broadcasting to millions of households across Asia and are home to a rapidly expanding neighbourhood of over 500 channels. A high value neighbourhood we're committed to growing.
